

Whitepaper  
July 2021

# Introduction

Launched in late July 2021, BabyMusk is an easy-to-understand decentralized token bringing real utility into the meme space.

BabyMusk has three core missions for all token holders:

## 1. Having Fun

- One of the main reasons for launching BabyMusk was so that we could continue to build, interact, share memes, and have a fun time online with a fun group of people. [Join us on Telegram](https://t.me/realbabymusk) if you haven't already. <https://t.me/realbabymusk>

## 2. Giving Back

- In addition to the 6% reflections that holders get when someone sells, we also created a donation wallet that receives a % of token buys and sells. That wallet will be used to give back to the charity of Elon Musk's choice.

## 3. Integrity

- Our goal with BabyMusk is to create a token you can finally trust. We plan to have open, transparent, and honest communication with the community. We've declared BabyMusk a scam free zone.

## **DISCLAIMER**

BabyMusk including but not limited to the overall project, the token, website, smart contracts and any apps (“BabyMusk”) as presented in this conceptual paper is not a licensed, unlicensed or exempted financial or payment service of any kind and in any jurisdiction.
